Payment

Customer Support Manual

Payment Issues

If your payment fails or gets deducted without order confirmation, please contact customer support with transaction details for quick resolution

Payment Security

All transactions on our website are processed through secure and encrypted payment gateways to ensure your data remains safe.

What if the order fails or did not go through?

Sometimes it is possible that an order is not successfully submitted. If you see that your money has been debited but you have not received an order confirmation email (please check your spam folder and all eligible email addresses), it means that the purchase was not successful. Don't worry, in such cases the refund will be made automatically and will be refunded to the same payment method within 3 business days at the latest. If the refund is still not made after this period, feel free to contact us and we will review your case.

Where Do I Find My Invoice?

Your invoice is available once your order has been successfully confirmed and processed.

How to Access Your Invoice:

1. From Your Email

After your order is placed, a confirmation email is sent to your registered email address. This email may include your invoice or a link to download it.

2. From Your Account

If you have created an account with MR Brands:

- Log in to your account
- Go to the “My Orders” section
- Select the relevant order
- Download or view your invoice from the order details page

3. Need Assistance?

If you cannot find your invoice, please contact our customer support team with your order number. We will be happy to resend it to you.

Please keep your invoice for future reference, warranty claims, or returns.

What payment methods do you offer?

At Mr. Brands, we offer a range of convenient and secure payment options to make your shopping experience easy and worry-free.

Accepted Payment Methods

You can pay for your order using the following methods:

Credit and Debit Cards - We accept major cards such as Visa, MasterCard, Discover, American Express and others through secure payment gateways.

Mobile Wallets - Popular wallets for faster checkout may be available.

Other Secure Online Methods - Depending on availability, additional options like digital payment services may be shown at checkout.

All transactions are processed through encrypted and secure payment systems to protect your financial information.

Payment Security

We take your security seriously - so your card or account details are never stored unencrypted on our servers. All payments go through trusted, PCI-compliant gateways for maximum protection.

Troubleshooting Payments

If your payment fails or the amount gets deducted without order confirmation, please contact our customer support with your transaction reference for help.

In some cases, your bank may require additional authentication (OTP or bank verification).

If you’re unsure which payment option to choose, you’ll see all available choices when you reach the checkout page.
